

# Nguyễn Thành Tín

Frontend Developer

✉ ngthanhtin68@gmail.com    ☎ 0334127445    📍 Ho Chi Minh city

## ABOUT ME

Frontend Developer 2+ years of experience working with React, NextJS, and React Native. Expert in structuring large codebases using modular design to improve efficiency and maintainability. Skilled in optimizing performance and consistent UX across multiple platforms. With a strong background in NestJS and Database management, I am focused on mastering System Design to become a Senior Fullstack Developer. (<https://portfolio.techmentora.com/>)

## SKILLS

**Frontend:** Typescript, ReactJS, NextJS, React Native, UI Library

**Backend:** NodeJS, NestJS

**Tools:** Figma, Docker, Github, Gitlab, Jira, AI Tool

## EXPERIENCE

### Bach Khoa Technology

09/2025 - Present

#### ● Frontend Developer - <https://bachkhoa.tech>

- Developed core EdTech features including electronic lesson plans and grading systems, ensuring high performance for school management.
- Engineered responsive UIs using React and Tailwind CSS, with deep customization of the H5P library to enhance lesson-authoring capabilities.
- Implemented Playwright automation tests to validate critical business workflows and ensure system stability during modular refactoring.
- Integrated AI RAG solutions to build an intelligent assistant for automated user guidance across the Bach Khoa ecosystem.
- Tech Stack: ReactJS, Redux Saga, NodeJS, Playwright, LLMs (RAG).

### Tanca.io

03/2024 - 09/2025

#### ● Frontend Developer - <https://tanca.io>

- Refactored core Web and Mobile features into independent, modular components to enhance system scalability and maintainability.
- Engineered a shared UI component library and logic layers using Redux Saga, significantly reducing code duplication across platforms.
- Integrated complex APIs to ensure seamless data synchronization and consistent performance across multi-device environments.
- Led technical code reviews and mentored interns to uphold high architectural standards and clean code practices.
- Tech Stack: ReactJS, React Native, Ant Design, Redux Saga.

### CMC Media

01/2025 - 09/2025

#### ● Frontend Developer - <https://yofatik.ai/>

- Developed and maintained frontend interfaces for internal AI products and an AI service website, supporting real business use cases.
- Built and optimized responsive frontend interfaces, improved UI/UX, and fixed bugs to ensure a consistent user experience across multiple devices.
- Integrated frontend with backend services via API consumption through Laravel server-side, handling data rendering and UI logic.
- Tech Stack: NextJS, PHP, Laravel

---

## EDUCATION

**Industrial University of Ho  
ChiMinh City**

2021 - present

● *Software Engineer*

| GPA 3.11/4 (Completed coursework, degree pending)

---

## AWARDS

2023 3rd Prize in ERUKA  
2022 1st Prize in "Innovation for aGreen Life INNOGREENLIFE 2022"Competition  
2022 1st Prize in YSC
